

Clean Set of Claims

1. A cordless telephone, comprising:  
a remote handset;  
a base unit matched to said remote handset; and  
an MPEG audio player integrated within at least one of said remote handset and said base unit;  
wherein said remote handset can switch between performing as a telephony device and performing as said MPEG audio player.

6. A method of integrating an MPEG audio player in a cordless telephone, comprising:  
connecting a base unit of said cordless telephone to a public switched telephone network (PSTN); and  
playing MP3 music from a remote handset of said cordless telephone.

18. Apparatus for integrating an MPEG audio player in a cordless telephone, comprising:  
means for playing pre-loaded MP3 music from a remote handset of a cordless telephone;  
means for connecting a base unit of said cordless telephone to a public switched telephone network (PSTN).

29. The cordless telephone according to claim 1, wherein:  
said switch is based on receipt of a trigger signal from said base unit of said cordless telephone.
